

Family Safaris

WITH THE ELEWANA COLLECTION

What could be more exciting for a child than spotting their first leopard, learning how to throw a Masai spear, roasting marshmallows over a camp-fire to the calls of distant lions, or seeing brightly coloured fish through goggles?

A family safari in East Africa is a holiday to be remembered for life. All of our properties welcome and accommodate children by offering flexible dining times, children's menus and most importantly, children's activities to help them see the wonders of Africa. In this way we ensure that every member of a family group gets the most out of their safari. Our guides love nothing more than introducing children to the world that they love so much, showing them the animals but also imparting knowledge and a love of Africa which will stick with them for life. Our guides will ensure that children have fun, grow an appreciation of their surroundings and encourage them to become the next custodians of this fragile part of our planet.
